SUMMARY

Recent Graduate in Information Systems from Universitas Informatika dan Bisnis Indonesia (GPA 3.95) with a strong passion for **frontend development**. Skilled in building responsive and high-performance web applications using **React.js**, **Next.js**, **JavaScript (ES6+)**, **TypeScript**, **HTML5**, **CSS3**, and **Tailwind CSS**. Proficient in creating user-centric interfaces, integrating **RESTful APIs**, and ensuring cross-browser and mobile compatibility. Experienced in **Agile teams**, version control with **Git**, and UI/UX design using **Figma**. Eager to build responsive and user-friendly web interfaces.

EDUCATION

Universitas Informatika dan Bisnis Indonesia

Expected Graduation: December 2025

Bachelor of Information Systems, GPA: 3.95/4.00

- Served as a featured speaker at the webinar “The Art of Prediction: Classification and Regression for Business Innovation,” sharing insights with 50+ attendees and contributing to knowledge advancement in predictive analytics.
- Wrote 6 monthly articles related to technological developments and Information Systems topics to support academic enrichment within the student community.
- Served as Public Relations (PR) committee member for the Cybersecurity Awareness Webinar, collaborating with external penetration tester speakers to organize and promote event initiatives.

SMAN 13 Garut

2018 - 2021

- Led a 20-member Computer Division in the “Karya Ilmiah Remaja” extracurricular program.
- Represented the Computer Division of the “Karya Ilmiah Remaja” extracurricular program in the Regional Science Olympiad (Olimpiade Sains Kabupaten) for Information and Communication Technology (ICT).

PROFESSIONAL EXPERIENCE

Studio Saturasi Project

Garut (Hybrid)

Front-end Developer (Internship)

March 2024 – June 2024

- Designed and developed the **UI and frontend** for the *Studio Saturasi Project* landing page and wedding photography booking system, enabling users to explore services, schedule sessions, and manage bookings seamlessly.
- Built 30+ screens and various reusable UI components for both user (landing and booking pages) and admin (booking management) sides, ensuring consistent design and scalable code architecture.
- Built a responsive and high-performance web interface using **Next.js** and **Tailwind CSS**, optimized for SEO, accessibility, and fast rendering across desktop and mobile devices.

PT Kinemasystrians Multimedia (Infinite Learning)

Batam (Remote)

Front-end Developer (Internship)

August 2023 – December 2023

- Developed Upvote Books, a platform that streamlines university library book procurement by engaging students in the selection process to increase participation and foster greater interest in reading.

- Built a responsive user interface with **React.js** and **Tailwind CSS**, delivering a consistent, modern design and smooth user experience across devices.
- Built 20+ screens and various reusable UI components, including student-facing pages and admin dashboards, improving scalability and maintainability.
- Collaborated with the mobile development team to develop **REST APIs** using **Node.js** and **Express**, ensuring consistent data communication and seamless alignment between frontend and backend systems.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, SCSS, Tailwind CSS, Bootstrap 5, ShadCN UI, Responsive Design, Cross-Browser Compatibility

Backend Development: Node.js, Express, Hono, REST APIs, Better-auth

Database & ORM: PostgreSQL, MySQL, Drizzle ORM

Tools & Version Control: Git, GitHub, Figma

Development Methodologies: Agile / Scrum Methods

PROJECTS

- [Wedinote](#) - A platform for effortlessly sharing multiple wedding invitations messages through WhatsApp.
- [Upvote Books](#) - A web platform designed to bridge student aspirations and library management, encouraging active participation and improving reading interest among students.
- [Nextklx](#) - A redesign of Netflix's landing page.
- [Codeslices](#) - A front-end platform for downloading Figma UI designs and practicing slicing skills.
- [Glitchunt](#) - Browser extension for finding hidden elements on websites for penetration testing purposes
- [Hyprlnd](#) - PikaOS Hyprland Keybind References
